

FULFILL YOUR DESIGN VISION

With help from experienced engineers and designers, take your project from inception to construction.

Price Design Assist's early collaboration approach helps design engineers achieve their project vision.

Design Assist services can have a positive impact on the project's budget and the owner's peace of mind. Engage us early to maximize value as we support your project throughout the ideation life cycle (from the narrative design phase to construction design). Design Assist is supported by the experience of more than 300 Price system engineers, the largest air distribution product offering in the market and a state-of-the-art HVAC research and testing facility.

- + **Controlling project costs**
- + **Finding specialized system solutions**
- + **Providing proof of concept using tools like Acoustic Analysis and Computation Fluid Dynamics (CFD) Modeling**

Price Design Assist will help you fulfill your design vision without compromising budget, occupant comfort or creative ethos.

PROJECT DESIGN TIMELINE

Design Assistance

ENGAGE PRICE EARLY FOR MAXIMUM IMPACT

DESIGN DRAWINGS FINALIZED

1. DESIGN NARRATIVE REVIEW

- + Building/campus cooling and heating strategy
- + High-level space goals: utilization, future feasibility

2. COMPARATIVE SYSTEM ANALYSIS

- + Compare system attributes: first cost, energy usage, installation, maintenance, thermal and acoustic performance review

3. THERMAL COMFORT & IAQ ANALYSIS

- + Zone-level system performance review
- + CFD analysis*

4. LAYOUT ASSISTANCE

- + Zone-level layout and services review
- + Recommend typical zone solutions

5. ACOUSTIC ANALYSIS

- + Analysis from sound source to the receiver
- + Recommend mitigation strategy
