

ULTRATOUR FACT SHEET

*When parked, 4 ft. of additional space is required at the back of the vehicle to allow generator access.

QUICK SETUP & TEARDOWN

The mobile showroom takes approximately 30 minutes to setup and 30 minutes for teardown at each site. Please allow for this time between arrival and scheduled event/visit.

LEVEL SURFACE

Setup location must be fairly level. The showroom is permanently attached to the vehicle and we are unable to adjust and level it to the ground.

8 PERSON CAPACITY

Approximately 8 people can be in the UltraTour vehicle at one time.

DIESEL GENERATOR

The UltraTour's showroom equipment and air conditioning run on a diesel generator.

WIDE TURNING ALLOWANCE

At 36 ft. in length, the UltraTour will make wide turns. Please ensure your destination has the space available for entry/parking.

SHORE POWER (INDOOR EVENTS ONLY)

For use at an indoor tradeshow, please advise and we will provide additional details. Note: air conditioning unit will not operate on shore power.

AUTHORIZED DRIVERS ONLY

Only authorized drivers assigned by Price Industries are able to operate the vehicle portion of this unit. Drivers will be scheduled to ensure that the routes are scheduled for your region.

BEVERAGES PERMITTED

Beverages are permitted, but we ask that food is kept out of the UltraTour vehicle.
